7	Placeholder	x			Write down a text as an example for an input. Placeholders will only be visible when not using animated labels.
8	Hide/ Remove Label	x			You can hide or completely remove a label, if wanted.
9	Tooltip	x			
10	Enable Tooltip	x			Add a tooltip which is similar to a bubble that contains a description matching your image.
11	Content	x			Write down a text for the tooltip.
12	Animation		x		Your defined tooltip can be shown with an animated effect.
Form Item Textarea					
1	Item Size		x		Define the sizes of your form items. Select 6 out of 12 bars and your form item will scale through the half width of the form container.
2	Input Size		x		Choose a size for this input area. Differenz sizes can be defined in the styles menu.
3	Textarea Elements	x			
4	Label	x			Write down a label for this form item, e.g. message or concerns.
5	Identifier			x	Connect this form item with the matching field that is saved in the email list. Write down its technical name.
6	Placeholder	x			Write down a text as an example for an input. Placeholders will only be visible when not using animated labels.
7	Hide/ Remove Label	x			You can hide or completely remove a label, if wanted.
8	Tooltip	x			
9	Enable Tooltip	x			Add a tooltip which is similar to a bubble that contains a description matching your image.
10	Content	x			Write down a text for the tooltip.
11	Animation		x		Your defined tooltip can be shown with an animated effect.
Form Item Checkbox					
1	Item Size		x		Define the sizes of your form items. Select 6 out of 12 bars and your form item will scale through the half width of the form container.
2	Checkbox Elements	x			
3	Label	x			Write down a label for this checkbox, e.g. male or female.
4	Label Link	x			Tick this off if your label should be linked.
5	Link Target (Link target)	x			Drop the URL right here that will lead users to a new page.
6	Identifier			x	Connect this form item with the matching field that is saved in the email list. Write down its technical name.
7	Value			x	Define a value.
8	Tooltip	x			
9	Enable Tooltip	x			Add a tooltip which is similar to a bubble that contains a description matching your image.
10	Content	x			Write down a text for the tooltip.
11	Animation		x		Your defined tooltip can be shown with an animated effect.
Form Item Radio Group					
1	Item Size		x		Define the sizes of your form items. Select 6 out of 12 bars and your form item will scale through the half width of the form container.
2	Radio Group Elements	x			
3	Add Elements	x			Add as many radio buttons as you want.
4	---Label	x			Write down a label for this radio button, e.g. male or female.
5	---Value			x	Define a value.
6	Identifier			x	Connect this form item with the matching field that is saved in the email list. Write down its technical name.
7	Group Label (Group Title)	x			Write down a general label that matches all radio elements.
8	Tooltip	x			

9	Enable Tooltip	x			Add a tooltip which is similar to a bubble that contains a description matching your image.
10	Content	x			Write down a text for the tooltip.
11	Animation		x		Your defined tooltip can be shown with an animated effect.

Form Item Select

1	Item Size		x		Define the sizes of your form items. Select 6 out of 12 bars and your form item will scale through the half width of the form container.
2	Input Size		x		Choose a size for this input area. Differenz sizes can be defined in the styles menu.
3	Select Elements	x			
4	Label	x			Write down a label for this form item, e.g. interests.
5	Identifier			x	Connect this form item with the matching field that is saved in the email list. Write down its technical name.
6	Placeholder	x			Write down a text as an example for an input. Placeholders will only be visible when not using animated labels.
7	Hide/ Remove Label	x			You can hide or completely remove a label, if wanted.
8	Item Mode	x			
9	Choose Mode (Item Mode)			x	Options can either be added with a manual or an automatic mode.
10	---Options	x			Add as many options as you want.
11	---Label	x			Write down the label for a single option.
12	---Value			x	Define the value of a single label, e.g. 1.
13	---Email List (List)			x	Select an already existing email list that matches.
14	Tooltip	x			
15	Enable Tooltip	x			Add a tooltip which is similar to a bubble that contains a description matching your image.
16	Content	x			Write down a text for the tooltip.
17	Animation		x		Your defined tooltip can be shown with an animated effect.

Form Item Submit Button

1	Design (Type)	x			Select different button types. You can design custom button styles in the styles menu.
2	Size		x		Define a size for your button. Sizes can be changed in the styles menu
3	Submit Button Elements	x			
4	Caption	x			Add a caption to your button, such as send.
5	Link	x			Drop the link, where your button should lead to, right here.
6	Display		x		Buttons can either be displayed as inline (button next to button) or as a block (button above button).
7	Vertical Alignment (Align Button)		x		Your button can either be placed on the left or right side or in the center.
8	Tooltip	x			
9	Enable Tooltip	x			Add a tooltip which is similar to a bubble that contains a description matching your image.
10	Content	x			Write down a text for the tooltip.
11	Animation		x		Your defined tooltip can be shown with an animated effect.

Multistep Container

Multistep Item

Form Item Multi Select

1	Item Size		x		Define the sizes of your form items. Select 6 out of 12 bars and your form item will scale through the half width of the form container.
2	Input Size		x		Choose a size for this input area. Differenz sizes can be defined in the styles menu.
3	Multi Select Elements				
4	Label	x			Write down a label for this form item, e.g. interests.
5	Identifier			x	Connect this form item with the matching field that is saved in the email list. Write down its technical name.
6	Placeholder	x			Write down a text as an example for an input. Placeholders will only be visible when not using animated labels.
7	Hide/ Remove Label	x			You can hide or completely remove a label, if wanted.
8	Item Mode	x			
9	Choose Mode (Item Mode)			x	Options can either be added with a manual or an automatic mode.
10	---Options	x			Add as many options as you want.
11	---Label	x			Write down the label for a single option.

13	---Email List (List)			x	Select an already existing List that matches.
14	Tooltip	x			
15	Enable Tooltip	x			Add a tooltip which is similar to a bubble that contains a description matching your image.
16	Content	x			Write down a text for the tooltip.

17	Animation		x		Your defined tooltip can be shown with an animated effect.
Form Datepicker					
1	Item Size		x		Define the sizes of your form items. Select 6 our of 12 bars and your form item will scale through the half width of the form container.
2	Input Size		x		Choose a size for this input area. Differenz sizes can be defined in the styles menu.
3	Datepicker Elements	x			
4	Type	x			Choosing inline, the input area will be disabe. The input area will be visible using the default type.
5	Label	x			Write down a label for this form item, e.g. interests.
6	Identifier			x	Connect this form item with the matching field that is saved in the email list. Write down its technical name.
7	Placeholder	x			Write down a text as an example for an input. Placeholders will only be visible when not using animated labels.
8	Hide/ Remove Label	x			You can hide or completely remove a label, if wanted.
9	Configuration	x			
10	Calendar Week	x			The calendar weeks can either be shown or not.
11	Weekends	x			Choose if saturdays and sundays can be selected.
12	Language	x			Choose a language for the calendar view.
13	Today Button	x			Decide if the current date can be selected.
14	Highlight today	x			The current date can be highlighted within the calendar view.
15	Starting date	x			The starting date sets the first page of the date picker.
16	Date format	x			Select a date format that will be shown within the input area.
17	Tooltip	x			
18	Enable Tooltip	x			Add a tooltip which is similar to a bubble that contains a description matching your image.
19	Content	x			Write down a text for the tooltip.
20	Animation		x		Your defined tooltip can be shown with an animated effect.
DateRange Picker					
1	Input Size		x		Choose a size for this input area. Differenz sizes can be defined in the styles menu.
2	Display (Direction)		x		This area can either be displayed as inline (input next to input) or as a stacked (input above input)
3	DateRange Picker Elements	x			
4	Identifier (Field name "FROM")	x			Write down the technical name of the field "from".
5	Identifier (Field name "TO")	x			Write down the technical name of the field "to".
6	Label Separator (Field seperator)	x			Write down a text that will be shown between both input areas, e.g. to.
7	From Label (From label)	x			Write down a label for the first calendar view, e.g. from or start.
8	To Label (To label)	x			Write down a label for the second calendar view, e.g. to or ending.
9	Configuration	x			
10	Calendar Week	x			The calendar weeks can either be shown or not.
11	Weekends	x			Choose if saturdays and sundays can be selected.
12	Language	x			Choose a language for the calendar view.
13	Today Button	x			Decide if the current date can be selected.
14	Highlight today	x			The current date can be highlighted within the calendar view.
15	Start date	x			The range can be started at a particular date.
16	Date format	x			Select a date format that will be shown within the input area.
17	Tooltip	x			
18	Enable Tooltip	x			Add a tooltip which is similar to a bubble that contains a description matching your image.
19	Content	x			Write down a text for the tooltip.
20	Animation		x		Your defined tooltip can be shown with an animated effect.
Form Item Upload					
1	Item Size		x		Define the sizes of your form items. Select 6 our of 12 bars and your form item will scale through the half width of the form container.
2	Upload Elements	x			
3	Label	x			Write down a label for this form item, e.g. Upload CV.
4	Identifier			x	Connect this form item with the matching field that is saved in the email list. Write down its technical name.
5	Placeholder (Dropzone Message)	x			Write down a text that explains to users what they have to do.
6	Image	x			Add an image from the media library to this grid item.
7	--- Image width		x		Define a custom width for your uploaded image.
8	Hide/ Remove Label	x			You can hide or completely remove a label, if wanted.
9	Settings			x	
10	Allowed Files			x	Choose which files should be allowed to be uploaded.

11	Allow Multiple Files			x	Tick this off if users should be able to upload multiple files.
12	--Number of files			x	Define the maximum number of uploads.
13	Open on Mobile			x	The uploaded item can be visible on mobile view.
14	Size of files (in MB)			x	Define the maximum size of a file.
15	Tooltip	x
